

CLIENT FEEDBACK

L&D Contracting

Working on a time critical, high production site in Brisbane, QLD, the BA service team worked all hours to complete a critical repair to our 45T hydraulic hammer.

Spare parts to suit our hammer were in stock, fully equipped workshop with highly skilled service personnel made it all happen - so we could get back to work quickly.

“Great bunch of guys to deal with.. always willing to go that extra mile!”

KEVIN CATHART L&D Cathcart

100% I would recommend BAEG to other businesses.
