

CLIENT FEEDBACK

Newmont Mining

Working along side BAEG has been excellent. They are always a great help and assist us to the highest possible levels at all times.

Recently, they gave us advice, sourced and supplied and even hand delivered parts for a rockbreaker boom system breakdown onsite in Boddington.

BAEG always provide excellent service and have great availability when needed to be contacted.

“Yes, I would recommend BAEG to other businesses.”

RYAN MARWICK

Crusher Maintenance Supervisor - Newmont Mining
